5 points per row
How many points can you get?

THE SWITCH IS ON

Go to [Switchison.org](https://www.switchison.org) to download your Earth Month Bingo card

Share with friends

THE SWITCH IS ON

A

Assess the age and condition of your home appliances

Arrange a home energy audit

Add drought tolerant plants to your yard

C

Commit to replacing one gas powered appliance with an efficient electric appliance

Call a contractor to get a quote for a climate friendly home upgrade
(<https://switchison.cleanenergyconnection.org/>)

Calculate your carbon food print (try The Nature Conservancy calculator)

T

Talk to your local politicians about climate change and renewable energy

Try a meat and dairy free day

Travel somewhere by foot, bike, or public transportation

I

Invite a friend to go with you to an earth day/week/month event

Install a programmable or smart thermostat and LED light bulbs

Identify one product you regularly buy, that you can switch to a more sustainable option (example: laundry soap, toilet paper, trash bags)

O

Opt to use more renewable energy in your home by calling your utility provider

Observe a natural landscape

Outline your journey to an all electric home

N

Notice and Note what people and organization are doing good work in your community, join or support them

Notify someone about appliance rebates or incentives in their area
(www.switchison.org/incentives)

Nominate a friend to play Earth Month Bingo
